Dennis DiCapua
President, Programs

Our History

Two insurance entities—one dating back to 1981—are the foundation for Breckenridge Insurance. In 2009, the company acquired a west-coast workers' comp specialist, followed in 2010 by the acquisition of a regional wholesale brokerage based in St. Louis. Today, more than 100 team members deliver competitive solutions nationally across 10 offices and 20 cities led by Trevor Pierce and Dennis DiCapua.

Our Future

We continue to strategically invest in and accelerate our growth in terms of skilled brokers, geographic presence, carrier partnerships, technology and product offerings to best solve problems for a diverse array of clients nationwide. We're deeply entrenched in the insurance space and committed to organizational compliance practices as a SOC 2 (SSAE 26) certified service organization with comprehensive information security practices focused on the privacy of our valued clients' data. In the process, we have garnered the respect of industry and international carrier partners through hard work and perseverance.
