

IS YOUR CONSULTING BUSINESS PROTECTED?

Get the insurance you need

Tailored coverage for your business

Professional Liability (PL)

Also known as errors and omissions, or E&O coverage, this protects you from claims of negligence during the course of conducting business. You're protected even if you haven't made a mistake.

General Liability (GL)

Protects your business from a third party's claims of bodily injury, property damage, and personal injury like slander and libel.

Business Owners Policy (BOP)

BOP is an enhanced insurance policy that combines general liability and property insurance. It protects your business furniture and equipment, as well as claims of bodily injury and associated medical costs.

Cyber Security Insurance

Protects your business against computer-related crimes and losses. This can include targeted attacks, such as malware and phishing, as well as the occasional misplaced laptop containing confidential material.

Each Hiscox cyber security policy comes with complementary cyber security training for small business staff.
